

i-Care

Protection takes perfect shape with all the right pieces

Timely diagnosis of a Critical Illness (CI) is crucial as they often have long-term negative impacts on one's health, finances, and quality of life. With adequate coverage, you can receive timely treatment and focus on recovery without significant financial burden.

i-Care has all the pieces you need to ensure 360° protection, providing comprehensive CI coverage against 161 medical conditions, death and terminal illnesses. Get the complete care, financial protection and peace of mind you deserve.

According to the Life Insurance Association's (LIA) 2023 Protection Gap Study* and Recommendations

In 2022, the average death coverage was **3.6x** of Singaporeans' average annual income. LIA, however, recommends a protection coverage of **9x** their annual income to cover all related expenses for death and total and permanent disability - easing the financial burden on their loved ones.

Similarly, Singaporeans' average CI coverage was only **2.1x** their average annual income, but the ideal coverage should be **4x** their annual income to ensure an individual's financial needs will be met within an average 5-year recovery period.
